

kaleidescape

The Kaleidescape Experience

“... it’s unrivaled in its role as a house-
wide entertainment machine.”

Sound & Vision Magazine

The Kaleidescape Experience

Imagine all of your favorite movies at your fingertips. Imagine breathtaking audio and video fidelity, delivering a truly cinematic experience. Imagine no more searching for lost discs or sitting through previews and

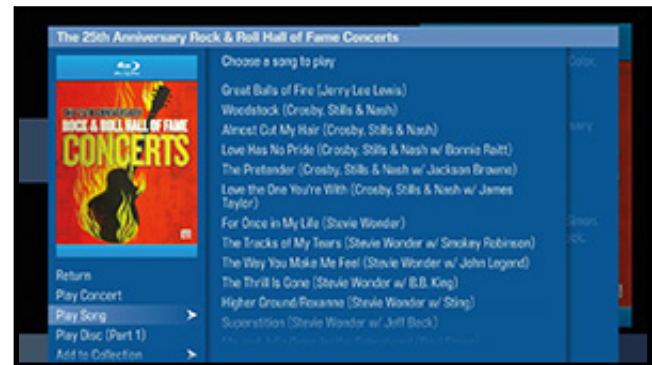

advertisements. Press PLAY, and your movie begins instantly.

You are just beginning to imagine the Kaleidescape Experience.

“The functionality and ease of use are unparalleled, the graphical interface is light-years beyond the competition.”

Robb Report Home Entertainment

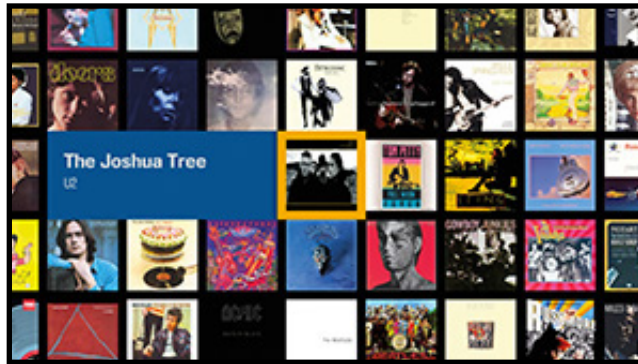

The Kaleidescape System

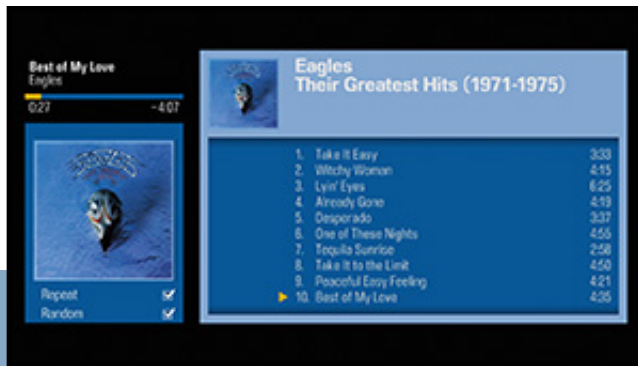

As the world's premier movie server, the Kaleidescape System stores copies of all your Blu-ray and DVD movies, and beautifully presents your entire collection onscreen. The award-winning user interface makes it easy to find the perfect film, or explore your movies and music like never before.

The Kaleidescape System enables you to enjoy your movies at any time, in as many rooms as you choose.

The way you enjoy movies will change forever.

Command Performance

As you settle into your favorite chair, you are greeted by the Kaleidescape onscreen display. This elegant interface presents your movies and music so you can find exactly what you're looking for in seconds. Once the movie begins, you'll enjoy the pristine

picture and incredible sound quality that only the Kaleidescape System delivers. You'll experience your Blu-ray and DVD movies as they were meant to be experienced – without compromise.

Plays Well with Others

Kaleidescape makes your home theater more theatrical. Designed to deliver the ultimate cinematic experience in theaters with 2.35 screens, Kaleidescape now offers CinemaScope. Kaleidescape players eliminate the disruptive mode switches and anamorphic lens movement previously associated with 2.35 projection home theaters by performing advanced video processing. CinemaScope makes it easy to enjoy each and every film in its original

aspect ratio, with no waiting, no interruptions and no hassle.

The Kaleidescape System also communicates with all popular control systems, ensuring seamless integration into even the most sophisticated viewing environments. Automatically lower the lighting as the movie begins, set screen masking, move curtains, or even start the popcorn maker at intermission. It's all part of the Kaleidescape Experience.

A Look Behind the Scenes

The heart and soul of the Kaleidescape System, the Kaleidescape Movie Guide is created in-house by a team of film buffs with a true passion for movies. In addition to setting bookmarks which enable you to skip menus and previews, Kaleidescape provides high-resolution cover art, plot synopses and cast lists for tens of thousands of films.

With Kaleidescape Scenes, you'll have the most memorable moments of your movie

collection at your fingertips. Kaleidescape experts have hand-picked thousands of the funniest, scariest, most action packed, and emotionally charged scenes from hundreds of the most popular movies of all time. Imagine how much fun you'll have with family and friends as you explore your movies together, reliving the best scenes from all of your favorite films.

Experience Your Movies Like Never Before

You'll also enjoy more control over your movie collection than you ever thought possible. You can instantly jump to any episode of a television series, or skip directly to an exciting action scene. You can stop a movie in one room and continue watching in another room — now or two weeks from now. Only Kaleidescape gives you this much control over your movie collection.

The Kaleidescape System is also the perfect way to enjoy your favorite concert films and musicals. Want to watch Dorothy sing *Over the Rainbow*? Just press PLAY.

A Kaleidescape System of Their Own

We offer a child user interface and the Child Remote so everyone can fully enjoy the Kaleidescape Experience. At the press of any button on the remote, the onscreen display automatically switches to the child user interface. Toddlers can play their movies all by themselves, choosing from a text-free interface that displays the covers of movies that you have selected for them.

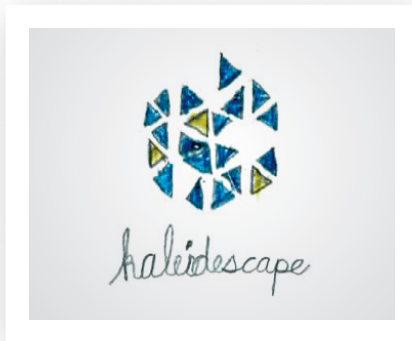

“Our basement has a fun 1950’s theme, and the Kaleidescape System allows us to carry that theme onto the screen!”

Randy Brazell, General Manager & Executive Producer

Jeff, Kathi, Jacob & Noah

Movie Lovers

"Kaleidescape is part of the family now. We use it and love it. One day, my son even drew a picture of the logo!"

Morgan

Age 2

"The Kaleidescape is where movies belong."

Brendon Wells

Movie Lover & Organized Techie

"Thanks, Kaleidescape, for developing a system that has allowed me to be organized and save time — time that I can now spend with my family and friends ..."

Ed Daone

Cinema Enthusiast

"For me, Kaleidescape is not just an investment but a relationship, and it's hard to place a price on that kind of value."
